

FLOCKIN Killer Pool RULES

To play you have to be over 18 years of age.

Random placement of players 1-10

Player 10 (or last player on board) always breaks yet this is not their go. (if black is potted or white they gain/ lose nothing!)
If you need to restack the game and player 10 is no longer in the game then it falls to the last player remaining.

Every player has 3 strikes. Once you lose all three, you are out of the game.

Once the game starts you pot any ball to remain in the game. If you do not pot, you lose a life.

If you pot the black you gain an extra life. The black is not put back into play - can only be won once.

If you are not there for your shot then you lose a life. (plan bar/ toilet runs!)

If you pot the wite you lose a life!

Last player standing wins.
